U. S. PRINTERS MAKE NEW RECORD SETTING UP TREATY

WASHINGTON, June 10.—Establishing a new speed record, the government printing office within two hours last night set up in type the German peace treaty consisting of nearly 100,000 words.

Despite the length of the treaty and the demand for haste, owing to the desire to have the treaty appear in the Congressional Record today, as ordered by the senate, the task was taken as a matter of everyday occurrence at the plant, which is the world's largest printing establishment.

As the treaty will appear today, it will cover 64 pages on the congressional Record and will have cost the government \$5,000 to print, of which \$1,000 represents the cost for placing it in type. Although senate leaders plan to have the treaty printed in document form later, 35,000 copies of the Record were printed last night for distribution among the regular recipients of that publication.

Although in addition to the treaty the printing office also had to handle for the Record the day's proceedings in both senate and house, both of which remained in session until a late hour, as well as other routine business, only the regular night force was called upon to assist in putting the treaty into print.

Decision of the senate to insert the

treaty in the Record was not reached until 5 p.m. Twenty minutes later it was being cut up into "takes" and distributed to 48 linotype operators.

The copy of the treaty, as placed in the Record by Senator Borah, of Idaho, consisted of more than 200 pages on one side of which appeared the French text and on the other the English translation. The copy of the document which was printed in Paris, contained a number of maps. Under the senate rules these could not be reproduced in the Record.

For the benefit of the press, Ansel Wold, printing clerk of the senate, had proofs prepared as fast as the 55 proof readers, who were hastily summoned for duty, and made necessary corrections.

According to Assistant Superintendent McAvoy, 3,600 pounds of print paper, or 15 large rolls, 42 inches in width and weighing 600 pounds each, were used in the printing of the treaty, while the type used alone weighed about 1,300 pounds.

MISSISSIPPI THROWS VOTE OPEN TO SOLDIERS

JACKSON, Miss., June 10. (Sp.)—The Democratic state executive committee at its sitting yesterday threw the doors wide open for the soldier vote.

Under the resolution framed by O. P. Lawrence, of Grenada, and amended by Capt. Frederick Sullivan, of this city, all white soldiers, sailors and marines may vote, regardless of whether they have registered or paid poll taxes, and whether in the state or serving overseas.

This is a distinct broadening of the amendment to the primary election law passed by the legislature in 1918 permitting absent soldiers to vote by mail, and exempting them from payment of poll tax.

The amendment of Capt. Sullivan was framed for the specific purpose of conferring right of suffrage in the primaries on those Mississippi soldiers who enlisted or were drafted when under age, who have since attained their majority, and have had no opportunity to either register or pay poll tax.

For illustration, a soldier who enlisted in a Mississippi regiment in 1917, when 19 years of age, went to France in August, 1918, with his command, and is still in France or Germany, under the provisions of this broadening of the suffrage qualification can send his vote by mail, even though his name has never appeared on the registration books. It likewise applies to soldiers of the same class who have been honorably discharged, the only restriction being that they must be bona fide residents of the election precincts in which they offer to vote.

The refusal of the Democratic state executive committee to put up the ban against candidates who failed to announce prior to the first Monday in May was not unexpected. The committee, by a vote of 12 to 3, held that the sole section of 1906 allowing candidates to announce within two weeks of the first primary, has never been repealed, and is still in full force and effect, the opinion of Attorney-General Collins to the contrary notwithstanding.

NETTLETON ROAD GETS \$43,000 FEDERAL MONEY

JONESBORO, Ark., June 10. (Sp.)—The board of commissioners of the Lake City, Nettleton and Bay Road improvement district No. 1, of Craighead county, have just received a communication from the advisory board of the state highway commission that the district had been allowed state and federal aid under the present distribution of funds; \$43,000 which will aid materially in lessening the cost of the road.

Another distribution of funds will be made in October, and every signpost thereafter. The board is very much encouraged. It will take nearly two years to complete the work. The road is to be 25 miles long, and 18 feet wide with concrete base and bituminous surface. It will connect Jonesboro with Lake City and also with Memphis.

TO CORINTH SCHOOLS.

BLUE MOUNTAIN, Miss., June 10. (Sp.)—Prof. Euclid Jobe, of this county, a graduate of the University of Mississippi, has just accepted a position as hall teacher in Corinth high school under Sept. M. E. Mott, a former Blue Mountain citizen, teaching this summer in the state normal here.

SECOND VICTIM OF SHOOTING IS DEAD

Gaston Goodman, Whiteville Farmer, Dies at Local Hospital.

Gaston Goodman, farmer, residing six miles north of Whiteville, Tenn., who was shot during a quarrel Monday morning, died at St. Joseph's hospital Monday evening. His death marked the second in the tragedy, his father, James Goodman, having been instantly killed when fired upon by Randolph Goodman, his brother-in-law.

The shooting is said to have been the result of a long standing quarrel which originated in family affairs. The Goodman and Goodman farms adjoin each other. It is said Goodman fired twice at the elder Goodman and once at the son and then surrendered to the sheriff, making bond for his appearance at the September term of court.

Young Goodman's body, which was taken in charge by Thompson Bros., was sent to Whiteville Tuesday for burial.

ROAD WORK IS TO START OVER ST. FRANCIS COUNTY

FORREST CITY, Ark., June 10. (Sp.)—D. D. Bland, Dr. J. O. Bush and Jas. Cranor, road commissioners, in company with Attorney J. W. Morrow and Civil Engineer H. E. Schellous, all of whom are members of the St. Francis County Good Roads association, at which, in addition to the Forrest City representatives, there were several of the property owners of the St. Francis valley, south of the Rock Island railroad and from Hughes and Vienna, including J. O. B. Beck, L. E. Brown, Ralph Jurden, Jas. R. Campbell, B. C. Pouncey, T. H. Tucker, S. M. Smalley, John B. Cavan, T. K. Ralston, Dr. Davis, B. C. Prior, A. H. Murray and others.

Following an exhaustive discussion of the conditions confronting the district with reference to graveling the 35 miles of road now under construction in district No. 2, a committee composed of Messrs. Beck, Pouncey, Campbell, Smalley and Tucker returned with the commissioners of No. 3 for the purpose of inspecting the roads already finished in districts Nos. 1 and 3 with gravel taken from the Crow Creek and Cripple creeks in this county. As a result of these conferences and investigations the commissioners of districts Nos. 3, 4 and 5 will take action at once toward letting the contracts for the work of hard surfacing the roads bounded by these districts at once.

AFRICANDER VISITS OLD HOME IN MISSISSIPPI

COLUMBIA, Miss., June 10. (Sp.)—After an absence of 10 years, W. W. Scherffus, who holds an important position in Pretoria, South Africa, is here on a visit. He is accompanied by his wife, who was formerly Miss Lucy Sparks, daughter of Mr. and Mrs. W. H. Sparks, well-known residents of the Dunbar neighborhood.

Mr. Scherffus is chief of the cotton and tobacco division of the agricultural department of the British government in South Africa. The purpose of his visit is to study the products of cottonseed in this country and the cultivation of tobacco in Cuba. He is now at the home of his wife's parents in the Dunbar neighborhood, but expects to leave for Havana this week.

Summer Sale of Furs.

Beauties—advanced Fall and Winter models, and you'll never miss the money buying them now on our easy payment plan. Rosenfeld's, opposite Gayoso hotel. adv.

COURT IN SESSION.

DYERSBURG, Tenn., June 10. (Sp.)—The Dyer county circuit court convened for the June term Monday, with Judge R. A. Elkins, Attorney-General T. O. Morris, Sheriff H. P. Bryant and W. H. Anderson at the respective posts. The grand jury is paying special attention to violations of the bone dry law. The officials are endeavoring to make it warm for the violators, many of whom unload their cargoes on the Mississippi in this county and convey by automobile to their destination. There have been many arrests of such within the past few weeks, and the cases will be disposed of at this time. The civil docket is in fair shape and will be brought down date before the adjournment of court.

Summer's Greatest Satisfaction

Is the pleasure our clothes wearers have in feeling perfectly fit in light fabrics that are built to the lines of his figure—they don't lose, the crease so quickly—they never look slouchy, too, the prices are moderate. J. H. Moriarty & Son, Tailors, 51 S. Main St. adv.

Activities Among Memphis Negroes

BY REV. T. O. FULLER.

With the death of the late Capt. W. B. Mallory, another star of the first magnitude fades from the horizon, but the glow of his life, like a beautiful aurora, will linger long to give courage and inspiration to thousands who will delight to "rise up and call him blessed." Among these, many of my own race will be found who can never forget his kindness and generosity. He was a "friend to man."

Some people can't "deliver the goods" because their stock is somewhat depleted. They need to find a "job" for Tuesday is enrollment day at the Howe Summer school. Regular classes Wednesday.

Among our own men who will deliver lectures at the Howe Summer school are: Dr. C. A. Ferrell, "School Hygiene," Dr. C. E. Brashers, "Teeth and Health," Dr. E. W. Irving, "The Health of Children," Attorney B. F. Booth, "The Moral Aspect of Legal Contracts," B. M. Keady, "The Relation of Banks to a People's Progress," Dr. A. M. Townsend, "Teaching as a Profession." The public will be invited to hear these general lectures.

The St. Stephen's Baptist church, Rev. J. L. Campbell, pastor, raised \$3,200 in a rally just closed.

Prof. William N. Jones, of the central civic committee, is spending some time at Atlantic City, N. J.

It is not entirely out of place to make occasional reference to substantial friends of the race like Mr. Henry Hurst, financial and public-spirited citizen. Such business men have helped many of our people to get started on the road to thrift and good citizenship. Men like these seldom aspire for office and it gives us pleasure to make this public acknowledgment.

The Rev. Russell S. Brown and wife are enjoying a visit from their grandfather and mother at their apartments at the Pymouth Community house. They will be joined later by Prof. Chas. S. Smith, of Wilberforce university. All are likely to spend the summer with the Brown family.

Thomas H. Hayes, Jr., has returned from Atlanta university, at Atlanta, Ga., where he has been attending school.

The Knights of Pythias and Court of Calanthe will celebrate the 28th anniversary of the order with a picnic at Church's park, June 23. Elaborate preparations are being made for the occasion.

The Odd Fellows of the city will celebrate their 46th anniversary at Church's auditorium Tuesday night.

Some churches are going into the grocery business. Why this change of work? Soul saving is a sublime task. Be careful, brethren. Failure in business may disrupt your congregation. Business organizations should handle the business.

WILL NAME BOARD.

PARIS, June 10. (French Wireless Service).—The council of foreign ministers of the peace conference has decided to name a commission of seven members to continue the discussion of the revision of the treaty of 1923 having to do with the status of Belgium. There will be one member for each of the five great powers and one each for Belgium and Holland.

Pretty, Wavy, Curling
Hair Without Hot Iron

Let me tell you of a simple method which is a favorite of the belles of a certain exclusive social set. I'm sure you would like to know of it, because it will give your hair such a pretty curling and better and permit you to do away with the ruinous waving iron forever.

Just get from any druggist a few cunners of ordinary liquid alimrine, and at night apply a little with a clean tooth brush, drawing this down the full length of the hair. In the morning you will have a real surprise, the fascinating, fluffy, wavy effect will appear so natural, and there will be no greasy, gummy, streaky or other unpleasant trace of this harmless liquid. You will also find it the best dressing for the hair—Mona Morrow in The Clubwoman. adv.

ACID IRON MINERAL— Discovered in Mississippi

Physicians will tell you that your system needs iron. Acid Iron Mineral is a natural iron discovered in a wonderful mine in Mississippi. A. I. M. is prescribed by physicians, and is the most powerful tonic known. Tones up the entire system—gives healthy blood circulation—protection against cold weather and diseases. Don't delay—order it today. Manufactured by Ferro-Chemical Corp., Roanoke, Va. For sale by Warnock Drug Co., Washburn-Lyle Drug Co., and other good druggists. HESSIG-ELLIS Drug Co., Van Fleet-Mansfield Drug Co., and Ellis-Jones Drug Co., wholesale distributors. adv.
